Education

Rice University   Houston, TX
Ph.D. in Computer Science   Aug 2022 – May 2026
- Advisor: Dr. Xia "Ben" Hu

Emory University   Atlanta, GA
B.S. in Applied Mathematics (Magna Cum Laude) & B.A. in Computer Science   Aug 2019 – May 2022
- GPA: 3.99
- Advisor: Dr. Carl Yang
- Thesis: Deep Learning for EHR-Based Diagnosis Prediction: A General Recipe

Professional Summary

Machine learning engineer/researcher focused on production-scale **personalization** and **resource-constrained deployment** of specialized, trustworthy, and efficient models that cooperate with cloud-hosted **large foundation models**. Specializes in:
Large/Small Language Models: efficient inference, fine-tuning, evaluation, structured reasoning, LLM fusion, agentic LLMs
Applications: recommender systems, digital advertising, time-series analysis, predictive healthcare
Trustworthy AI: explainability, uncertainty calibration, LLM-based explanations, hallucination detection

Experience

DATA Lab at Rice University   Houston, TX
Graduate Research Assistant   Aug 2022 – Present
- Developing privacy-preserving device-cloud collaboration for small/large language models such as inference routing
- Designed fair, intervenable, and intrinsically interpretable algorithms to advance personalized healthcare
- Collaborated with UTHealth in individualized sedation level prediction under general anesthesia
- Developed time-series classification algorithms, including LLM-based methods, deployed on edge devices for anomaly detection in the oil & gas (American Innovations) and HVAC (Daikin, Trane) industries

Amazon   Seattle, WA
Applied Scientist Intern   May 2025 – Aug 2025
- Mentored by Dr. Peiyao Wang and Dr. Qilin Qi at Prime Video & Amazon MGM Studios
- Reduced the offline–online performance gap for Prime Video recommendation models by 11.59% by building an efficient, training-free, behavior-aware LLM-based reward agent, leveraging vLLM for high-throughput inference

Samsung Electronics America   Mountain View, CA
Machine Learning Research Engineer Intern   Jun 2024 – Aug 2024
- Mentored by Dr. Wei-Yen Day and Dr. Rui Chen at Samsung Ads
- Proposed a domain adaptation algorithm addressing delayed feedback that improved the mobile performance product's return on ad spend (RoAS) by 6.46% and generated over $50K in-app purchases
- Ran large-scale hyperparameter tuning & online deployment with CI/CD pipelines, Airflow, and Amazon QuickSight

Samsung Electronics America   Mountain View, CA
Machine Learning Research Engineer Intern   Jun 2023 – Aug 2023
- Built the first user response prediction model for mobile performance ads, serving over 20M mobile users
- Developed a Mixture of Experts (MoE) model that increased the impression-to-install (i2i) rate by 15.84%
- Unblocked future applications of pretrained user/ad embeddings for better cold-start mitigation and look-alike targeting

Emory Graph Mining Group   Atlanta, GA
Research Assistant   Dec 2020 – Sep 2022
- Collaborated with Emory School of Nursing to build neural networks for diagnosis prediction & drug recommendation
- Conducted research on recurrent nets (vanilla RNN, LSTM, GRU), CNNs, GNNs, and Transformers for mining electronic health record (EHR) data to advance personalized healthcare

Honors and Awards

ICDM 2024 NSF Travel Award	*Nov 2024*
Rice Graduate Fellowship	*Feb 2022*
Phi Beta Kappa: invitation-only honor for interdisciplinary academic excellence at Emory	*Mar 2021*
Phi Eta Sigma: invitation-only first-year honor for 4.0 GPA at Emory	*Dec 2019*
Dean's list: top-performing college students	*2019, 2020, 2021, 2022*

Academic Activities

Teaching Assistantships

Fall 2025: COMP 514 Algorithms, Complexity and Approximations; *Fall 2023:* COMP 552 Reinforcement Learning; *Spring 2023:* COMP 631 Introduction to Information Retrieval; *Spring 2022:* CS 253 Data Structures and Algorithms.

Service

Conference Reviewer: CIKM 2023, KDD 2024, SDM 2025, ACML 2025, CIKM 2025

Journal Reviewer: ACM Transactions on Intelligent Systems and Technology, IEEE Transactions on Neural Networks and Learning Systems, IEEE Transactions on Cognitive and Developmental Systems, ACM Transactions on Computing for Healthcare, IEEE Transactions on Knowledge and Data Engineering

Invited Talks

Uncertainty Estimation for Large/Small Language Models at Samsung Ads	*Feb 2025*
Tabular Data Imputation at Samsung Ads	*Oct 2024*

Technical Skills

Languages: Python, C/C++, Java, C#, Bash, HTML, R, Swift
Data & Analytics: SQL, Spark, NumPy, Pandas
ML & LLM Frameworks: PyTorch, TensorFlow, Keras, Hugging Face Transformers, scikit-learn, vLLM, PyTorch Geometric, DGL, NLTK, FAISS, OpenAI API, DeepSpeed, bitsandbytes, FlashAttention-2
MLOps & Cloud: Apache Airflow (MWAA), CI/CD, Git/GitHub, A/B testing, GPU acceleration (CUDA, cuDNN), AWS (EC2, SageMaker, S3, QuickSight), Linux, Conda (Anaconda), LangChain, Agent Development Kit
